**OPTION PACKAGES**

ENHANCED AWARENESS $99,900

New weather tracking tools are available for precision analysis in real time. The enhanced Digital Real-Time Weather Radar scans areas of up to 120 for storms tops and cell buildup at various altitudes. Flying at night with an eye on the weather can be accomplished with Enhanced Vision System. This infrared camera captures the image of what is actually outside the aircraft and reveals any hidden hazards in the air and on the ground. Also know your location on the airport or while approaching with runway alerts and takeoff/landing distance data available through Surface Watch and ChartView. Weight 12 lbs.
PRO PILOT $89,900

A professional pilot requires professional equipment. The Traffic Avoidance System outfits your Vision Jet with TCAS-1 Traffic Targeting plus audible intruder alerts. Ensure there is sufficient clearance in any environment: TAWS-B Terrain & Obstacle Awareness warning system enhances your synthetic vision with possible conflict alerting. Your peace of mind also increases with a third Attitude Heading Reference System/ Air Data Computer and additional Digital Transponder. The added ADAHRS increases redundancy and crosschecking capabilities to your Cirrus Perspective Tough cockpit. Increase your Vision’s utility with co-pilot quick donning mask and upgraded 40 cu Ft. aluminum-lined cylinder to double the oxygen quantity which equates to less time between refilling when testing the equipment. Finally, this package increases cockpit efficiency by integrating electronic manuals directly to the avionics. Weight 30 lbs.

PREMIUM LUXURY $79,900

A personal jet must have a personal touch. Your choice of Premium Leather and Contrast Stitching are carefully crafted to interact harmoniously in the interior. By adding the 6th and 7th XC Seats, the Vision Jet can be easily configured to include the smaller members of the family too. Each seat in the cabin benefits from Enhanced Dimmable Accent Lighting fused with Textured Fabrics to provide an inviting personal space. Plus, the inventive lines and distinguished Multi-Tone Paints accent every curve for a stunning tarmac presence. Weight 56 lbs. (including 32 lbs. XC Seats combined)

PRODUCTIVITY & EXPERIENCE $69,900

Maximize your experience with a 22" LED LCD Entertainment Display for both work and play. Enhance productivity and keep passengers connected by incorporating Power Outlets. The 115 VAC inverter promises you’ll never be far from a convenient power supply. Additionally, set the cabin to perfect personal temperature without disturbing your pilots using Rear Controls positioned for passenger input. Pair with stunning Gold Reflective Windshield and Cabin Windows to experience natural lighting and ensure heat is deflected away. Weight 19 lbs.

CONNECTIVITY $29,900

The Perspective Global Connect allows text messaging and phone call function directly from the cabin allowing you to stay informed while on the ground or at 28,000 feet. The level of convenience and safety provided by worldwide triduum Datalink Weather offers powerfully simple connectivity and peace of mind. Echo tops, freezing levels, and severe storms tracks are just a few entries at your fingertips. Ground Link uploads the aircraft data while parked within a Wi-Fi hotspot. Weight 12 lbs.

ELITE $1,739,000

Technology and Luxury both tastefully elevated to the ultimate level in your Personal Jet. The all-new Vision Jet elite takes you to a higher altitude of uncompromising beauty, comfort, and advanced function. The Vision Jet Elite includes Enhanced Awareness, Pro Pilot, Premium Luxury, Productivity and Experience, and Connectivity. Aircraft Weight 3700 lbs.
Additional Options

CARGO X-TEND $14,900

This unique space has been designed to complement your existing main baggage area. Whether you fish, ski, or golf the additional opening allows longer equipment to slide into its own storage shelf. Load up your Vision with the “extended” stuff. Weight 9 lbs.

RELIEF STATION $19,900

Your passengers need an on-hand solution for those long flight segments. The modular seating system allows you to replace a seat with an on-board relief station. This additional option will be greatly appreciated! Weight 15 lbs.

ADS-B WEATHER & TRAFFIC $9,900

Utilizing NextGen Technology your aircraft will receive subscription-free weather and datalink traffic (US only). Also supplement an active traffic system with a second source for the best information available. Weight 4 lbs.
